

USE & CARE INSTRUCTIONS FOR I-PRO 1 & 2 COLD DRINK DISPENSERS

NOTICE - This guide is for quick reference only and is not intended to replace the information in the operational manual

DISASSEMBLY & CLEANING

Complete the following steps:

Turn off cooling switch and let the machine rotate for ten minutes.

Switch off the power and remove any remaining product from the bowl; rinse the machine with hot water.

1. Remove the bowl top cover(s).

2. Remove the bowl lid(s).

3. Unscrew the knobs (note there are two screws).

4. Pull the bowl assembly forward while holding the base and remove.

5. Unscrew the securing bolt.

6. Pull the mixing unit from the cooling drum.

7. Remove the mixing unit shaft seal.

8. Remove the hopper seal from the flange on the cooling drum.

9. Remove the faucet by pressing the wings while sliding up.

10. Remove the drip tray and cover.

11. Place all parts except for the bowl lids in a clean sink with mild hot water (120°) and sanitizer solution. Allow all parts to soak for at least 5 minutes. Carefully wash all components with a clean wash cloth in the hot water and sanitizer solution. Use a clean soft bristle brush as needed for the smaller components and tight areas. **Do not immerse bowl lids.** Use a commercial sanitizer that has 100 ppm of available chlorine with a concentration level of at least 3% available chlorine (Kay- 5 Sanitizer). Follow the sanitizer's mixing instructions to ensure 100 ppm of available chlorine.

12. Wash the drum (s), hopper drip tray(s), top cover(s), and outer enclosure using a clean wash cloth that has been dampened in the hot water and sanitizer solution. Pay attention to the shaft area and make sure it is thoroughly cleaned and sanitized.

13. Thoroughly rinse all surfaces with a clean wash cloth that has been dampened with hot water. Wipe everything dry with a clean dry wash cloth before reassembling the dispenser.

WARNING: Although most parts are dishwasher safe, they may be affected by the chemicals in some commercial sanitizing agents. **Do not place the bowl or the bowl lids in a dishwasher.** Rinse thoroughly before assembly.

ASSEMBLY

1. Immerse food grade lubricant on the bowl seal.

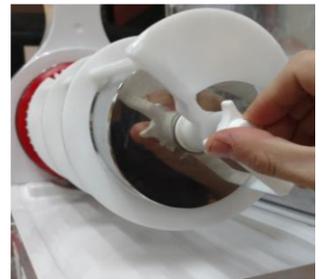

2. Install the bowl seal over the flange at the rear of the cooling drum as shown.

3. Immerse food grade lubricant on the mixing unit shaft seal and place it back (see picture 7 above).

4. Align the mixing unit shafts with the mixing units and push the mixing units as far as they will go.

5. Rotate the securing bolt counter clockwise until mixing unit will start to rotate.

6. Install the bowl over the mixing unit and cooling drum and slide it into place.

7. Rotate the knobs clockwise. Do not use excessive force or any tools to do so. Note there are two knobs.

8. Immerse food grade lubricant on the O rings gaskets on the tap.

9. Slide the faucet into its base until hearing a clicking sound.

10. Set the bowl lid and cover on the bowl.
11. Return the drip tray (see picture 10 above)

12. Turn on **both** the **cooling** and **mixing** unit switches on the right side of the machine

NOTE: Make sure all product is thoroughly mixed before adding it to the bowls (hoppers).
